SP3510DN

LANIER

compact and speedy

Small, smart and speedy, the SP3510DN is at home in any small or personal office. It offers everything you need for everyday document printing. Network ready as standard with double-sided printing, this black and white A4 laser printer is easy to operate and maintain.

outstanding productivity

Produce your documents in no time with the SP3510DN. This printer warms up in less than 20 seconds and in a mere 8 seconds, the first print is ready on your desk. Continuous print speed is a fast 28ppm.

easy to connect

Our devices are suitable for shared use and with standard USB 2.0 and Ethernet 10 base-T/100 base-TX, the SP 3510DN fits right into your existing network. You can send each job to the most appropriate network machine; that way, you get the best value from each of your output systems.

versatile printing

Save time by collating your prints automatically, and protect confidential documents by using a watermark.

user fast and friendly

Quick and simple user maintenance is ensured with only one easy-to-replace cartridge, you can conveniently replace the drum and toner in one go. Paper can easily be removed from the front operational paper pass if needed.

environmentally friendly printing

Like all Lanier products, the SP3510DN reflects our commitment to preserving the environment, through the use of toxic free materials and low power consumption (Energy Saver mode).

specifications

PRINTER

Technology:	Laser beam scanning & electro-photographic printing Mono component toner development
Print speed:	28 prints per minute
Warm-up time:	Less than 20 seconds
First print speed:	Less than 8 seconds
