LANIER

designed to make life easier

Intuitive operation panel

The operation panel is easy to customise and displays your personal home screen with all your own preferences and settings, it even tilts for better ergonomics. The home button is an easy way to get back to the main screen, and an integrated USB/SD slot lets you work directly from an external source.

Enhanced internal controller

Manage your operation costs by setting quotas per user group or individual. Combining high throughput with sustainability, the controller also features an Eco-Friendly indicator that shows the paper settings history for more efficient usage. The USB/SD slot allows the easy printing of PDF, JPEG and TIFF files.

Advanced fusing system

Less creases and wrinkles when printing out envelopes, due to the advanced fusing system. Environmentally conscious, the fusing system supports a lower recovery time from sleep-mode to operation. Adding to lower TEC (typical electricity consumption) values, which also means less impact on the environment.

Maximum security

Achieve information security with a Copy Control function that prevents the unauthorised copying of documents. Enhanced encryption (AES256bi, SHA2) and HDD encryption for scanning and hard disk security, further add to safeguarding your documents. Secure scanning to Web Mail via SMTP with encrypted SSL adds another layer of security to your device.

Save time, save money

An impressive 45-55 colour prints per minute gets through jobs quickly. The large paper tray and highly effective document feeder accelerate task turnover. Users can preview scanned documents to check data before transmission, eliminating potentially costly or embarrassing errors.

Indirect savings with a direct impact

The print quota management system cuts back unnecessary paper usage, reducing your energy bill. Remote Fax allows multiple users to send and receive faxes on a single network, removing the cost of maintaining multiple fax lines.

looks good, works great

The dual-colour design concept promotes intuitive usability, with frequently used parts rendered in dark grey. The new compact cube design provides flexibility for all office spaces and sizes. Attractive and easy to use menus appear on a large LCD operation screen.

professional inline finishing

At last, truly professional print quality. Smart printing options deliver a truly professional finish and outsourcing fewer jobs saves on time, effort and costs. There are 1,000 sheet and 3,000 sheet staple finishers available, as well as a 2,000-sheet booklet finisher. Add a punch unit to create 2, 3, or 4 hole punched documents that are ready for insertion in binders.

smart software

A range of smart software optimises your MFP's performance in key areas. From GlobalScan-NX, which makes scanning straightforward, to @Remote, which gathers operational data to help manage your output devices efficiently. They even order their own new toner, maximising device uptime.

critical capabilities for business communications

- 1 Easy access & intuitive operation via the colour LCD panel
- 2 100-sheet Auto Reverse Document Feeder to efficiently handle one- and two-sided originals

smart, speedy and green

they multi-task so you don't have to

MFPs that are designed to work with you to make routine jobs easier. There's the automatic Job Promoter that skips a job if there's insufficient paper – and prints the next job in the queue. There's also colour scanning to email, FTP, SMB, NCP, USB/SD or URL, which simplifies a whole host of routine office tasks.

go with the workflow

Speeding up the way you do things is the key to efficient workflow, these devices have a number of clever features for just that, including: the ability to prioritise tasks direct from the by-pass tray, see your jobs clearly with banner page separation and a useful output summary, schedule printing to happen outside peak times, or overnight and even print timetables, tickets and manuals directly from the internet using the Browser Unit.

environmentally responsible

Lanier products have eco-friendly and money saving features such as fast duplex printing and copying, ultra low sleep mode and increased toner yield. This saves paper, time and energy, while reducing waste and costs. Lanier products are also Energy Star compliant, which means less energy is needed to run your device.

Low maintenance, high accessibility

Full front access and loading, easy jam-removal and two-way paper tray save time and do away with hassle. While for wheelchair users, accessibility is made easier by the optional scanner separation, lightweight multi-grip drawers, optional accessibility handle and singlehanded toner replacement.
